

Top 10 Christmas Tree Safety Tips

1. Choose a tree with fresh, green needles.
2. Cut the 1-2" from the base of the tree before placing in the stand.
3. Keep away from heat sources, like fireplaces and heat vents.
4. Never use lit candles to decorate a tree.
5. Use only indoor lights.
6. Make sure you don't use lights with cracked or missing bulbs.
7. Don't overload the circuits. For non-LED lights, don't string together more than 3 strands.
8. Turn off any lights when leaving home or going to bed.
9. Keep your tree watered daily.
10. When the tree dries out, say goodbye!

Hang this by your Christmas tree as a safety reminder, or cut and color to hang on your tree!
